

Budapest Semesters in Mathematics Education Informational Webinar

April 6 | 12:00 pm EDT

Join current BSME students, alumni and staff to learn more about this unique study abroad program.

BSME students learn about the Hungarian pedagogy, which emphasizes problem solving, mathematical creativity, and communication.

"I think the BSME program was a great academic experience. The classes really benefitted my future plans as a math teacher." BSME Student - Fall 2021

"This program was very useful and it helped me realize that math is a fun and enjoyable subject that I am very excited to teach." BSME Student - Summer 2018
